STAR TREK CONTINUES: EP 11 'TO BOLDLY GO' PART II

TEASER

FADE IN:

FLASHBACK - EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON

The Enterprise and Hawk's Talon hang in space near the galactic barrier. Over the following, we see exciting FLASHBACKS from our previous episode that correspond to his words.

KIRK V.O.

Captain's log, stardate six-nine-ninety-five point one. Several days ago, the Enterprise was rerouted to Aldebaran Three -- where, at a top secret facility, Starfleet housed twenty-five humans with extraordinary ESP quotients.

(beat)

Leaving a renegade Vulcan and his wife Lana to distract us with illusions, the remaining espers seized the Federation vessel SS Halifax and set course for the energy barrier surrounding our galaxy.

(beat)

Commander Spock sought the help of Romulan Commander Charvanek -- an unauthorized act for which he has been duly reprimanded.

FLASHBACK - INT. CONTROL CENTRAL - IRW HAWK'S TALON

TAL

Commander! We have them! Here, in Romulan space...!

CHARVANЕК

Tal. We will assist the Enterprise in its mission. Is that understood?

(CONTINUED)

CONTINUED:

KIRK V.O.

The Romulans agreed to accompany
the Enterprise to the barrier in
order to intercept the Halifax.
But we arrived too late.

FLASHBACK - INT. BRIDGE - USS ENTERPRISE

CHEKOV

Sir... we're picking up a wessel at
the barrier.

KIRK

Full mag.

FLASHBACK - EXT. SPACE - GALACTIC BARRIER - VIEWSCREEN INSERT

A small vessel -- an Antares-type freighter -- APPEARS on
screen.

FLASHBACK - INT. BRIDGE - USS ENTERPRISE

PALMER

(re: engineering scope)
Identification confirmed.
SS Halifax.

KIRK

Ship-to-ship.

UHURA

Hailing frequencies open.

KIRK

This is Captain James Kirk of the
starship Enterprise. We're here to
render aid.

(beat)

I understand you have grievances...
and we offer our services as go-
between with Starfleet Command.
But it is crucial that you do not
enter the barrier.

(beat)

Uhura, anything?

(CONTINUED)

CONTINUED:

UHURA

No, sir.

(reacts)

There's no one aboard.

CHEKOV

Captain... detecting another ship
nearby. A starship...

SPOCK

(re: science viewer)

Scanning... It is the Kongo, sir.
We are receiving anomalous
readings.

KIRK

What sort of 'readings'?

SPOCK

(shakes head)

Difficult to decipher. But it
would appear there are only about
two-dozen life-forms on board.

UHURA

I've tied into the Kongo's bridge,
captain.

KIRK

On screen.

FLASHBACK - INT. BRIDGE - USS KONGO - VIEWSCREEN INSERT

The main viewer DISSOLVES to the interior of the Kongo's
bridge. We SEE SUPERNUMERARIES facing us: their eyes are
GLOWING SILVER.

KIRK V.O.

The Halifax already entered the
galactic energy barrier -- and, in
doing so, 'uplifted' the esper crew
with superhuman powers. Utilizing
their abilities, the espers somehow
seized control of our sister ship --
the USS Kongo.

FLASHBACK - INT. BRIDGE - USS ENTERPRISE

(CONTINUED)

CONTINUED:

Reactions!

Suddenly, the turbolift SWOOSHES open... and out come Lana and Sentek!

LANA

You're too late, captain.
Relinquish command... or the
Enterprise will suffer the same
fate as the Hood.

PLAY Kirk's reaction as we...

FADE OUT.

ACT ONE

FADE IN:

1 EXT. SPACE - USS KONGO

1

SUPER episode titles as we PAN over the primary hull. The serial number, revealed a character at a time: NCC-17...

...and suddenly we're surprised to see the final two digits are reversed: 10! Above it is the name 'USS KONGO.' Behind the Kongo, the sky is bisected by the purple-pink ribbon of the energy barrier.

As our VIEW flips around, REVEAL the Enterprise and Hawk's Talon away from the Kongo, facing her.

2 INT. BRIDGE - USS ENTERPRISE

2

As at the end of 'Part I': KIRK, SPOCK at science, UHURA at comm, PALMER at engineering, CHEKOV at nav, SMITH at helm. LANA and SENTEK near turbolift.

KIRK

Uhura! Every available security guard to the bridge!

KIRK (cont'd)

(to helm)

Shields up! Back us off!

UHURA

(keys comm)

Security alert! All personnel to deck one!

LANA

Not so fast, captain.

(over Kirk's head)

Helm, hold position.

(CONTINUED)

KIRK

This is my ship.

Lana stretches out her right arm, fingers extended, and BOLTS OF ENERGY slam Kirk to the floor. Smith runs to help him.

Spock moves toward Lana and she turns to him, slamming him backward with another energy bolt. She then turns to Chekov, who has stood up from his chair.

LANA

Do as I said. Hold position -- and drop shields.

Uhura grabs Lana's shoulder, swings her around, and decks her with a right cross! No effect! Sentek THROWS Uhura off!

Chekov rushes Lana...

DOORS OPEN -- DICKERSON and SECURITY GUARD dash in, just in time to see Lana FIRE A BOLT at Chekov, knocking him backwards.

Dickerson FIRES at Lana -- the phaser beam as NO EFFECT! With a sweep of her arm, Dickerson and the other Guard's phasers go flying!

SMITH

Stop!

Sentek SLAMS Dickerson and the Guard to the ground and rushes to the engineering station. He begins to WORK the controls.

Kirk and Spock, both recovering, rush Lana simultaneously.

Lana takes aim at Kirk and SENDS him backwards again. Spock gets close enough to try a neck pinch on Lana -- but it has no effect. Lana SMACKS him to the ground!

SMITH (cont'd)

Stop!

Smith's eyes SUDDENLY GLOW SILVER, and she FIRES BOLTS from her hand at Lana! Lana is thrown against the engineering console by the force of the blast.

(CONTINUED)

2 CONTINUED: (2)

2

Kirk and Spock react to Smith's actions... Unsaid: 'What the hell?'

Sentek grabs onto Lana, and KEYS a panel:

SENTEK
(into comm)
Kongo, two to beam over!

The transporter WHINE grows, and Sentek and Lana dematerialize.

Kirk climbs back into his seat:

KIRK
Chekov! Get those shields back up!

CHEKOV
Aye captain!

Chekov rights himself and dashes back to the nav station. He RAISES SHIELDS and the ship goes to RED ALERT just as the ship ROCKS with a phaser blast!

SPOCK
Deflectors at eighty percent.

KIRK
Return fire.

Chekov WORKS his controls...

3 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON

3

The Enterprise FIRES PHASERS as the Romulan ship FIRES MISSILES at the Kongo.

4 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS

4

[RED ALERT.]

CHEKOV
No effect, captain!

SPOCK

psionic abilities to enhance the
Kongo's shields.

KIRK
Back us off.

CHEKOV
Yes sir.
(beat)
The Kongo is holding position.

Reactions... relief from all.

The turbolift doors OPEN. Two other SECURITY GUARDS enter
the bridge.

KIRK
Go to yellow alert.
(low)
Mister Smith. Report to sickbay.

She turns to him, eyes silvered.

SMITH
Captain, I...
(off his look)
Sir.

She walks slowly. Dickerson and Security Guard escort her
into the LIFT.

5 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON

5

As before. Hovering quite a distance from the barrier and
the Kongo.

6 INT. BRIEFING ROOM - USS ENTERPRISE

6

Kirk, MCCOY, SCOTT at the table. Kirk drinks a cup of
coffee. He's growing irritable.

MCCOY
Any idea how they overpowered the
Kongo's crew?

(CONTINUED)

KIRK

(shakes head)

Probably similar to what they did
to the Hood. Their illusions are...
formidable.

MCCOY

You knew Captain Azmi?

KIRK

(sadly)

He was my friend.

SCOTT

If the espers wanted to steal a
starship, why not take the Republic
-- or the Yorktown -- when they
went to investigate?

MCCOY

Hell, they probably tried to.
We're lucky those ships managed to
escape the system first.

SCOTT

Barely. The poor lasses'll take a
year to rebuild -- at least.

Kirk stands and paces.

KIRK

Regardless. They've got a starship
now, gentlemen.

(beat)

What are they waiting for? Why not
turn us against each other... trick
us into shutting down our systems...?

(CONTINUED)

MCCOY

(frowns; beat)

Well... We know that uplifted espers
need time to develop their powers.
They just entered the barrier and
took over the Kongo. They might
not have enough energy to do the
same to us.

(beat)

For now.

KIRK

Yes... for now. But it's only a
matter of time.

(beat)

I don't like distrusting our own
senses, gentlemen. We need to stay
sharp... focused.

(CONTINUED)

MCCOY

I might be able to synthesize a formazine solution. Help keep us all on our toes.

SCOTT

Aye. We should keep our distance from 'em as well. They dunna have indefinite range.

KIRK

Yet they're holding position. Our weapons don't seem to affect them.

(beat)

Why not attack?

SCOTT

Their engines're offline. I'm guessin' the Kongo's crew managed to shut 'em down before they were...

(searches for the word)

...overrun. They'll have to restart 'em.

KIRK

How long?

SCOTT

That's just it, sir. It shouldna take this long. Perhaps they dunno exactly what they're doin'.

KIRK

(irritable)

Too many unknowns. Find me solutions.

(beat)

Dismissed.

Scott LEAVES... but McCoy holds back.

KIRK (cont'd)

Something else, doctor?

MCCOY

Jim, you look like hell. How long've you been awake?

(CONTINUED)

KIRK

Two days...
(re: coffee)
...and I need to keep going.

MCCOY

Normally I'd tell you you're wrong.
But you aren't... this time.

KIRK

Law of averages.
(beat)
Bones, do you know how many people
have died under my command?

MCCOY

Jim...

KIRK

Seventy-three. In five years.

MCCOY

But you've saved countless more.
Whole planets.

KIRK

I don't know why, but... I can't
stop thinking about it. About
them.

(beat)

Tomlinson. Tormolen. Jackson.
Mister Drake. I could name them
all.

(beat)

And now... a starship with two-dozen
espers, bent on revenge. How many
more people have to die?

MCCOY

We'll stop them.

KIRK

At what cost, doctor. At what
cost.

PUSH IN on Kirk, tired... and worried.

7 INT. SICKBAY - USS ENTERPRISE

7

Smith is in the far bed in medical coveralls. Her eyes are SILVERED OVER. Security Guard stands watch as the NURSE scans her.

McKENNAH ENTERS. Without turning to see her:

SMITH

Counselor. I'm glad you're here.

(off her silence)

Please don't look at me like that.

I didn't ask for this.

(beat)

I don't even know how...

McKennah studies her, greatly concerned.

MCKENNAH

Mister Spock has a theory.

(beat)

You were touching one of the espers when this ship went through the barrier five years ago.

(off her nod)

You didn't quite uplift then... but contact with him left residual effects you didn't know about.

Proximity to the barrier must've triggered it.

SMITH

I can hear what you're thinking, Elise. But you're wrong. I'm not dangerous.

(sighs)

I feel this... power surging in me.

But I'm not Gary. I would never hurt any of you.

MCKENNAH

I wish we could know that for sure.

8 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON

8

As before.

9 INT. SPOCK'S QUARTERS - USS ENTERPRISE

9

PLAY a series of IMAGES: specifications of Constitution-class starships on the VIEWER.

REVEAL Spock at his desk, studying. His door BUZZER sounds.

SPOCK

Come.

CHARVANEK ENTERS. He reacts.

CHARVANEK

Spock. We have unfinished business.

SPOCK

Commander. My answer then was as it must be now: I am a Starfleet officer.

CHARVANEK

Surrounded by those whose minds cannot reach out to others.

(beat)

Humans fear that which they foolishly call 'extrasensory.' They cannot bear the intimacy of shared thoughts.

She raises her hand, palm out.

CHARVANEK (cont'd)

The mixing of two minds... solute and solvent.

Spock rises and approaches her. He lifts his own hand and presses his palm against hers.

SPOCK

We did share something... significant.

CHARVANEK

I have thought of you often, Spock.

(CONTINUED)

They begin to caress each other's fingers.

CHARVANEK (cont'd)

When my ship departs, come with me.
You belong at my side.

SPOCK

Nothing has changed. I am still
first officer of the Enterprise.

CHARVANEK

Whose mission will soon be over.
Your job is complete. It is time
for new challenges.

(beat)

An opportunity to return my people
to the Time of Awakening... before
the Sundering. To the path begun
by Surak so many centuries ago.

SPOCK

(confused)

No. This is not correct...

CHARVANEK

But it is. Our union would be
symbolic, Spock: a step toward
reunification.

SPOCK

You are a Romulan. Proud. Yet you
are here as I want you to be -- not
as you are.

CHARVANEK

Why question? Just... feel.

Spock raises his hand, fingers spread as if to perform a mind
meld -- but he brings them to his own cheek.

SPOCK

This cannot be.

CHARVANEK

Spock...

SPOCK

This cannot be real.

(CONTINUED)

9 CONTINUED: (2)

9

He winces... and Charvanek DISSOLVES into thin air, leaving
Spock all alone! PUSH IN on him as we:

FADE OUT.

ACT TWO

FADE IN:

10 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON 10
As before.

11 INT. BRIDGE - USS ENTERPRISE 11
SULU at helm; Chekov at nav; Uhura at comm; Palmer at engineering. The COMM WHISTLES:

KIRK V.O.
Kirk to bridge. I need you to set
a new heading: Zero-one-zero mark
thirteen. And drop shields.

CHEKOV
(puzzled; into comm)
Captain? That course will bring us
straight into the barrier! Without
our shields...

KIRK V.O.
You have your orders. Kirk out.

Sulu and Chekov share a reluctant look as they begin to WORK
their panels.

SULU
Uhura? Anything from the Kongo?

UHURA
Sorry, sir.

Kirk ENTERS from the lift.

KIRK
Mister Sulu?

SULU
The Kongo's holding position,
captain.

Kirk sits as he quickly (and distractedly) signs a
SUPERNUMERARY's PADD. Clearly on edge; distraught.

(CONTINUED)

CHEKOV

Course laid in for the galactic
barrier, sir. On your mark.

KIRK

(reacts)

The barrier? What're you talking
about?

Before anyone can react, the turbolift doors OPEN and Spock
steps onto the bridge.

SPOCK

Captain. I have been compromised --
and if I have, others may have been
as well.

Kirk gives Spock a puzzled look. He moves to stand by Kirk.

SPOCK (cont'd)

Have you experienced anything...
unusual?

KIRK

No.

(beat)

Yes. I find myself dwelling.
Dwelling on...

He trails off as he looks away.

SPOCK

(low)

Sir. I believe the espers are
attempting to influence our minds
and render illusions. They are
deliberately distracting us.

Kirk looks up for a beat. Realization.

KIRK

Sulu... check the Kongo's location
again. Don't rely on their
transponder; use our main sensor
beam. Triangulate with the
Romulans.

(CONTINUED)

11 CONTINUED: (2) 11

SULU
Aye, captain. Scanning.
(beat)
Correction! There's no ship ahead
of us.

PUSH IN on Kirk.

KIRK
Bring us about! Now!

12 EXT. SPACE - USS KONGO 12

The Kongo -- now behind the Enterprise -- FIRES phasers,
STRIKING our heroes' left warp nacelle!

13 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS 13

RED ALERT! The ship SHAKES!

CHEKOV
They've opened fire, sir!

KIRK
Charge phaser banks!

Chekov frowns... swallows...

CHEKOV
I... I don't remember how...

KIRK
Sulu!

Sulu nods and reaches over to hit the BUTTON.

14 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON 14

The Enterprise FIRES its rear phaser as the Hawk's Talon
FIRES a plasma torpedo!

The weapons IMPACT the Kongo!

15 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS 15

[RED ALERT.]

(CONTINUED)

SULU

(re: helm viewer)

We hit them! No damage... but they
are moving off.

KIRK

'Moving off'?

SPOCK

Captain. If you recall, espers'
energy can be expended. They may
require a few moments to...
'recharge.'

KIRK

(nods)

Let's use that time wisely.

CHEKOV

Sir, I don't know what came over...

KIRK

Snap out of it, lieutenant. That's
an order.

(keys comm)

Scotty, report.

SCOTT V.O.

(filtered; over comm)

Their shot took out our port
nacelle. I'll need thirty minutes
to get it back online.

KIRK

We don't have thirty minutes.
Perform a cold restart.

SCOTT V.O.

(filtered; over comm)

Sir?! If anything goes wrong...
we'll lose the whole ship!

UHURA

Captain! Commander Charvanek is
hailing us.

(CONTINUED)

15 CONTINUED: (2)

15

KIRK
Put her through.

INTERCUT:

16 INT. CONTROL CENTRAL - IRW HAWK'S TALON - VIEWSCREEN INSERT 16

Charvanek appears on the MAIN VIEWER.

CHARVANEK
(filtered; on screen)
Captain Kirk. We must withdraw.
Even our weapons cannot weaken
them.

INTERCUT:

17 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS 17

[RED ALERT.] Kirk nods and swallows... but now a thought:

KIRK
(into comm)
Or perhaps... that's just what they
want us to think.

Charvanek raises an eyebrow. Kirk spins in his chair.

KIRK (cont'd)
Spock... double-check those readings.

Spock nods. Studies his viewer:

SPOCK
I am detecting fluctuations in
their shields. It would appear
their psionic abilities cannot
deflect multiple strikes
simultaneously.

KIRK
Then we'll hit them from both
sides.

CHARVANEK V.O.
(filtered; on screen)
Agreed.

(CONTINUED)

SPOCK
(shakes head)
Captain. An attack from only two
vectors would be insufficient to
compromise their shield grid.

KIRK
(thinks)
If not two...

And now he stands.

KIRK (cont'd)
...then what about three?

Reactions from the others... Sulu, Chekov, Uhura, Palmer.
What's he getting at?

Kirk shares a look with Spock. And, after a beat, Spock nods
his approval.

KIRK (cont'd)
(to Uhura)
Lieutenant... ship-wide.

UHURA
Yes sir.

She WORKS HER CONTROLS.

KIRK
(into comm)
All decks. This is the captain.
We are about to undergo a risky
procedure -- one which we've never
before attempted. Chief engineer
Scott will be performing a reset of
our engines. As a precaution,
Commander Spock will remain on the
main bridge...
(beat)
While I assume command of the
secondary hull.

Reactions!

INTERCUT:

18 INT. CORRIDOR - USS ENTERPRISE

18

[RED ALERT.] CREWMEMBERS listen, in shock.

KIRK V.O.

(filtered; over comm)

We will then coordinate with the
Hawk's Talon to perform a three-
pronged attack on the Kongo.

19 INT. JEFFERIES TUBE - USS ENTERPRISE

19

[RED ALERT.] A CREWMAN reacts to Kirk's announcement...

KIRK V.O.

(filtered; over comm)

All non-emergency personnel
evacuate to the primary hull
immediately.

INTERCUT:

20 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS

20

[RED ALERT.]

KIRK

(into comm)

Prepare... to jettison the drive
section.

As he SWITCHES OFF THE COMM, the bridge begins to BUSTLE with
activity. Spock steps to him:

SPOCK

(aside)

Captain. Even if we are
successful, it will be extremely
difficult to reconnect the
secondary hull.

KIRK

Difficult... but not impossible,
Spock.

(beat)

Use impulse power to keep a safe
distance. I'll be relying on
thrusters only.

(CONTINUED)

20 CONTINUED:

20

Spock nods. Kirk heads for the LIFT. At the door:

KIRK (cont'd)
Mister Sulu? Care to join me?

PLAY Sulu:

SULU
(huge grin)
I've always wanted to do this.

And he hurries out of his chair as the bridge crew begins to shift positions.

21 EXT. SPACE - USS ENTERPRISE & IRW HAWK'S TALON

21

As before. In the distance, the Kongo begins to MOVE.

22 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS

22

[RED ALERT.] Spock now in the center seat. Uhura at comm; Palmer at engineering; Chekov now at science. New HELMSMAN and NAVIGATOR.

UHURA
(into comm)
All hands to battle stations. This is not a drill. I repeat: This is not a drill.

CHEKOV
(re: science scope)
Commander. The Kongo is powering up its impulse engines.

SPOCK
Understood.
(keys comm)
Spock to Captain Kirk. All systems ready.

23 INT. AUXILIARY CONTROL - USS ENTERPRISE

23

[RED ALERT.] Kirk, Sulu, and a SUPERNUMERARY OPS OFFICER at the console.

(CONTINUED)

23 CONTINUED:

23

KIRK
(into comm)
Main bridge, stand by.

SULU
Closing EPS connections. Sealing
turboshafts and Jefferies tubes.

KIRK
Mister Sulu... I hope you remember
your simulator sessions.

SULU
(jokingly)
What simulator sessions?

Kirk gives him a wry look, and he smiles. WORKS HIS
CONTROLS.

24 EXT. SPACE - USS ENTERPRISE

24

The primary hull SEPARATES from the secondary hull!

The saucer climbs above the Kongo as the drive section dives
below.

25 INT. BRIDGE - USS ENTERPRISE

25

[RED ALERT.]

HELMSMAN
(re: helm viewer)
Commander, the Kongo is moving
toward the stardrive section.

SPOCK
Ready phasers. Load torpedo tubes.
(beat)
You may fire at will.

The Helmsman FIRES!

26 EXT. SPACE - USS ENTERPRISE

26

The Enterprise's saucer soars above the Kongo, phasers and
photon torpedoes BLASTING from the saucer's underside.

(CONTINUED)

26 CONTINUED: 26

The Kongo RETURNS FIRE.

27 INT. AUXILIARY CONTROL - USS ENTERPRISE 27

[RED ALERT.]

SULU
Captain. The saucer has engaged
the Kongo.

KIRK
We need to buy Scotty some time.

Sulu WORKS HIS BOARD.

28 EXT. SPACE - CONTINUOUS 28

The secondary hull FIRES PHASERS from its aft emitter.

The Hawk's Talon approaches, FIRING MISSILES at the Kongo.

29 INT. BRIDGE - USS KONGO 29

Lana in the chair. Sentek at helm. SUPERNUMERARY ESPERS at
other stations.

SENTEK
All three ships are attacking,
Lana.

LANA
Stay with them!

SENTEK
(frowns)
Which one?!

Off Lana's angry reaction...

30 INT. AUXILIARY CONTROL - USS ENTERPRISE 30

[RED ALERT.]

SULU
It's working, sir. Their power
levels are dropping.

(CONTINUED)

30 CONTINUED:

30

KIRK

Keep at it. Maintain barrage.

Kirk watches the VIEWER:

31 EXT. SPACE - USS KONGO - AUXILIARY CONTROL VIEWSCREEN INSERT

31

The Kongo is repeatedly HIT by the ONSLAUGHT.

32 INT. BRIDGE - USS KONGO

32

SPARKS FLY as the bridge SHAKES.

Sentek swallows and turns to his wife.

SENTEK

Lana.

(beat)

Lana!

She glares at him -- but acquiesces.

LANA

(defeated)

Disengage.

Sentek OPERATES CONTROLS.

33 INT. BRIDGE - USS ENTERPRISE

33

No longer at red alert.

NAVIGATOR

The Kongo is powering down weapons,
sir.

SPOCK

(nods)

Full stop.

(to Uhura)

Lieutenant Uhura... hail the drive
section.

Uhura frowns as she WORKS HER PANEL...

(CONTINUED)

33 CONTINUED:

33

UHURA
(confused)
Mister Spock... I'm unable to reach
the captain. They're... blocking our
transmissions.

SPOCK
Compensate, lieutenant.

UHURA
(shakes head)
We're being hailed by the Kongo,
sir.

Spock nods.

INTERCUT:

34 INT. BRIDGE - USS KONGO - VIEWSCREEN INSERT

34

The bridge of the Kongo appears on the main VIEWER. Lana,
Sentek, and the others.

INTERCUT:

35 INT. BRIDGE - USS ENTERPRISE - CONTINUOUS

35

McKennah ENTERS the bridge. Steps down to him, watching the
viewer.

SPOCK
Lana. You will cease your
disruption of our comm frequencies...

LANA V.O.
(filtered; on screen)
You're in no position to make
demands, commander.

SPOCK
Nor are you.

SENTEK V.O.
(filtered; on screen)
Scan our hangar deck. You will
detect the Kongo's former
crewmembers -- including Captain
Azmi -- alive and well.

(CONTINUED)

Spock frowns. Gives Chekov a look.

CHEKOV

(re: science viewer)

Confirmed. Reading several life signs in their shuttlebay.

SENTEK V.O.

(filtered; on screen)

We are prepared to discuss terms... in person.

SPOCK

What do you propose?

LANA V.O.

(filtered; on screen)

Doctor McKennah was... 'kind' to me. I trust her.

(beat)

Beam her aboard our vessel.

McKennah's eyes widen.

SPOCK

I will not.

SENTEK V.O.

(filtered; on screen)

You will, commander. Or shall I decompress our hangar deck?

Reactions. Spock hesitates.

MCKENNAH

Spock. I'll go.

(beat)

We can't risk it. If they are still alive, we can't risk it.

SPOCK

(thinks)

Permit me to contact my captain. I will discuss...

SENTEK V.O.

(filtered; on screen)

No. You have one minute to decide, Spock. Kongo out.

(CONTINUED)

The VIEWSCREEN goes dark. Everyone looks to Spock for an answer. His frustration growing.

MCKENNAH

Please. We can save those people...
and I can talk to Lana. Negotiate.

(beat)

I'm trained in mediation. There
has to be a win-win scenario here.

SPOCK

(to Uhura)

Lieutenant. Attempt to hail
Captain Kirk...

UHURA

(frustrated)

I can't hail the captain, sir!

Spock looks at the floor. McKennah steps to him.

MCKENNAH

(quietly)

You're in command. Make a command
decision.

SPOCK

(low)

Doctor. We cannot be certain the
Kongo crewmembers are indeed alive.
This may be a deception. Logic
dictates...

MCKENNAH

Logic, Spock?! After all you and I
have talked about?

(beat)

What do your feelings say?

They share a long look.

And he gives Uhura a nod. She REOPENS THE CHANNEL.

SPOCK

(to screen)

Very well, Sentek. We will lower
our shields and transport our
officer to your vessel...

(beat)

(MORE)

(CONTINUED)

35 CONTINUED: (3)

SPOCK (cont'd)

us.

MCKENNAH

You don't have to do this.

Lana DROPS THE FORCEFIELD.

LANA

You should eat.

She steps into the cell. Slides a plate of food to McKennah.

McKennah glares at her. But she can't help being tempted by the food. She resigns herself to her hunger, and takes a bite. Swallows. Then looks back to her captor.

MCKENNAH

Lana. The Federation values all its citizens. There's a place for each and every one of you.

He nods to Uhura.

UHURA

Yes, sir. They have the ability to

If our ships restrict themselves to
lower bands, the espers won't be

SCOTT

Kirk nods sadly. He raises his hand to her. She does the same.

Spock raises his right hand in the form of the Vulcan salute -- but he looks at it, then closes the gaps between his fingers and thumb... the same as she and Kirk have done. The human gesture for 'good-bye.'

McKennah smiles at him, closes her eyes -- and SPARKLES away, into eternity.

SLOW DOLLY to Kirk and Spock... into C.U. Spock, masking his pain.

SPOCK

Whatever is necessary... to 'let it
go.'

Kirk smiles sadly. On some level, he gets it. He puts a
hand on Spock's shoulder.

KIRK

There's one more thing I need to
do. Then I'll see you at dinner.

81 INT. BRIDGE - USS ENTERPRISE

81

The lift doors SPLIT OPEN, and Admiral James T. Kirk steps
for the last time onto this bridge. The lights are dim,
though the consoles are BLINKING.

KIRK V.O.

Captain's log. This will be my
final entry. So end the voyages of
the Starship Enterprise under my
command.

He looks at the dedication plaque, lightly touching it, then
walks around the upper stations, passing communications and
the library computer.

KIRK V.O. (cont'd)

During its five-year mission, we
explored strange new worlds. We
found new life and new
civilizations.

He steps down to the captain's chair, taking in his domain.

KIRK V.O. (cont'd)

And we boldly went...
(beat)
...where no man had gone before.

He ENTERS the turbolift and disappears for good.

82 EXT. SPACE - USS ENTERPRISE

82

The Enterprise in dry dock, ready for its refit. Behind it
the Earth's night side... cities glowing like transporter
sparkle. Beyond that... the sun, setting behind the mighty
starship. The sun slips behind the home planet, leaving the
Enterprise only illuminated by the dry dock's floodlights.
And, at last, we:

FADE TO BLACK.
